

Outdoor Microsoccer

Issues and rules are the same as indoor, except as follows:

Size 3 soccer ball.

Out of bounds if ball completely crosses a boundary.

Throw-ins. Instruct and give second chances.

- Face the field

- Part of each foot on or outside touch line on the ground

- Hold with both hands

- Deliver from behind and over the head

- Ball is in play when it enters the field

- Thrower cannot be the first to touch

Goal kicks and corner kicks as appropriate. If there is any doubt, err on the side of goal kick (because in a 3v3 game with micro goals, a corner kick is not an advantage, and is often a disadvantage for the kicking team).
